N. Temple Court, New York City
S. Katz, Agent.

THE FUTURE PROSPECT OF UNIONVILLE.

The town of Unionville, at one time a prosperous little city of more than eight hundred inhabitants, and a garden spot of wealth and beauty, lies today in a state of decay and ruin, and but few families remain to tell of the vast wealth of the mines, which in days gone by made many a Mackay and a Flood; but to-day when the facilities for mining are far ahead of those of twenty years ago, the mines are left idle and no effort is made to again bring forth some of their hidden treasure by the simpler methods of the present day.—Silver State.

Unionville for years had a population of 1,200 or 1,400, and was one of the many prosperous mining towns of Nevada. The Arizona mine alone gave employment to about 200 men in various capacities. There were churches and schools and everybody had more or less money. There is more ore in sight in the mine at the present time according to the estimates of Mr. Carmichael, who is a practical miner and assayer, than ever before, but at the present price of the ore cannot be worked except at a loss. There are many other mines at Unionville, but with few exceptions they do not contain gold enough to pay. If silver brought even one dollar an ounce, Unionville to-day have a prosperous population of 1,500 or 2,000, and it is only one of many mining camps in Humboldt and other counties in Central, Eastern and Southern Nevada which are now nearly deserted, of which the same may be truthfully said.

Do we want a party in power that is pledged to a policy that will prevent the restoration of prosperity in these camps?

BUSINESS STAGNATION.

A communication in another column relating to reduction of interest rates deserves attention. The time was in Nevada when 18 per cent was not considered an exorbitant rate of interest. Then the money was in circulation, products and labor commanded good prices and enterprising people invested in mining prospects, the reclamation of arid lands and many other things which tended to develop the resources of the country and build up the State. There was very little money lying idle in banks, but it was in the pockets of the people instead.

How different now since silver has been discredited at the mints. The prudent citizen who has money buries it in a tin can or deposits it in a bank vault. Why? Because under the gold standard, property is depreciating instead of appreciating in value. Real estate will not sell in any city in the Union for as much as it would have brought under the hammer several years ago.

But, argues the gold men, a low rate of interest denotes that money is abundant. That is true because enterprise is paralyzed and capital takes no risk. Money could be procured at any time in the last thirty or forty years in London at three per cent, but no one pretended to say that London was an inviting place for a person who wanted employment, because money could be had there at a low rate of interest.

DATES FIXED FOR SPANISH EVACUATION.

The date for the evacuation of Porto Rico by the Spanish troops has been fixed for October 10. In case of failure the United States Commissioners are to take possession of the government. The Spaniards are expected to evacuate Cuba by December 1. If they fail to do so the United States will immediately thereafter take possession of the government. If it is found impossible to secure transportation for the Spanish troops before the dates fixed they may be permitted to go into temporary quarters until transports can be secured to take them to Spain. It is not probable that the Paris Peace Commission will make any different arrangements relating to the evacuation of Cuba and Porto Rico. The Spaniards will have to leave those islands and the United States will assume absolute control of them. Porto Rico will doubtless like the Hawaiian Islands, become an American Territory and that is almost certain to be the case in Cuba, ultimately, as the insurgents are becoming bandits and are apparently incapable of maintaining a state government.

The Minnesota State troops have left for the scene of the Indian uprising in that State, which is reported to be growing worse, although the Federal and State authorities claim they have it well in hand and they are now working in harmony.

The yellow fever situation in Mississippi is growing rapidly worse and cool weather is anxiously looked for to abate the disease. It is feared that unless this relief comes the whole State will become infected.

Mr. Chamberlain, Secretary of the British Colonies, who is now visiting America, is reported as saying that an alliance between Great Britain, America and Canada, will be invulnerable.

Mrs. George who is charged with the shooting of Saxton at Canton, Ohio, was arraigned yesterday and pleaded not guilty. It is claimed her defense will be no alibi.

Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in the most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement, I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cts per bottle at S. J. Hodgkinson's Drug Store.

Remarkable Rescue.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for consumption she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework and is as well as she ever was. Free trial bottle of this Great Discovery at S. J. Hodgkinson's Drug Store. Large bottles 50 cents and \$1.00.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by, S. J. HODGKINSON.

A Rhodes' Anecdote.

Here is a new anecdote about Cecil Rhodes: In 1884 he was severely attacked in the press, and notably by one journalist to whom he had given very considerable assistance. "I do call that man a hound," said one of Mr. Rhodes' friends, "after all you have done for him." Mr. Rhodes flushed up, and with one of his sudden though rare explosions burst out with, "Hound yourself! Do you think I wanted to bribe the man?"

An Eye to Business.

Optician—My dear sir, your case is hopeless.
Customer—And am I doomed to blindness?
Optician—It is inevitable. I think you'd better look at my beautiful line of artificial eyes at once.—Jewelry Week.

PIANO, GUITAR AND MANDOLIN,

Mrs. M. E. ROUSSEAU, Teacher.

Special attention is given to Technique, Expression and Study of Classical Music.

Rates Given to Guitar and Mandolin Clubs; use of Instruments.

Attention given to practice.

RESIDENCE ON FIFTH AND VIRGINIA STREETS.

Heat and Fuel Savers.

How long are you going to "get along" with that old cookstove that burns more fuel than a furnace and heats the outdoors more than does the oven?

A very little money will buy one of our cookstoves—you'll save the price in fuel in one season. It will keep the heat where it ought to be, and cook your food as it ought to be cooked. Come in and examine them.

NEVADA HARDWARE AND SUPPLY CO., VIRGINIA STREET.

The registration books are now open for the general election to be held November 8th, 1898. They will close on the evening of the 20th at 6 o'clock. Only a few days remain and every voter should see that his name is on the register correctly.

BREVITIES.

What good has reducing the volume of standard money done?
B. F. LEETE.

B. F. Leete is a candidate for a Senator of the United States from the State of Nevada, United States of America.

Old newspapers for sale at JOURNAL office.

Plumbing and tinning at Lange & Schmitt's.

Lamps, all kinds and prices at Lange & Schmitt's.

O. J. Smith took the train for Eureka last evening.

Window glass, all sizes, cheapest at Lange & Schmitt's.

Frank Slason of the Wadsworth Dispatch visited Reno yesterday.

Radiators and airtight heating stoves at Genesey and Savage.

Most complete line of brushes in the State. Porteous Decorative Co.

Senator J. P. Jones arrived on the V. & T. last night and continued west.

Crookery and glassware best and cheapest at Lange & Schmitt's.

Mrs. A. J. and Mrs. James McCone were westbound passengers last evening.

Bargains in heating stoves, also exchanged. Thirty varieties. Lange & Schmitt.

Mrs. J. E. Jones and Mrs. M. F. Jones returned from San Francisco yesterday.

Senator Stewart arrived from California Sunday morning and continued on to Carson.

G. O. Wallace spent Sunday here and took the evening train for the Eastern part of the State.

W. E. Sharon spent Sunday and yesterday here and will return to Virginia this morning.

Window glass—we don't have to cut it because we have the size—Porteous Decorative Co.

Mrs. S. Unsworth and sister, Miss Cleveland, took the train for San Francisco last night.

A. O. Cleveland returned from San Francisco last evening and registered at the Riverside.

Attention is called to the millinery announcement of Miss Lucy Barrett in the 50-cent column.

Bale ties, also forks and other tools for farmers and stockmen at the Reno Mercantile Company's store.

Captain Sanders and Lieutenant Stone of the Nevada Battalion, were passengers for San Francisco last night.

Geo. W. Cheek, the popular clerk of the Riverside has gone back to Illinois on a two months' visit to the old folks at home.

Passenger train No. 2 was delayed by a wreck at Rose Creek and passed through several hours late yesterday afternoon.

The young people of the Baptist Church will give a chicken pie dinner Friday, October 14th, from 4 to 7 o'clock. See 50-cent ad.

The Monarch is one of the most popular resorts in town and Anheuser beer leads as a beverage. Don't fail to give Fred and Pete a call.

Henry Riter's Elite is a central resort and there is always a crowd there. If you are looking for anyone you may be sure of finding him there.

Take your jewelry, watches and clocks to Doane, the jeweler, if they require repairing. Give him a call and you will never go any other place.

H. J. Thyes has just received a fine set of heaters, turreens and other conveniences with which to serve his hot lunches. From now on a splendid hot lunch will be set at noon each day.

Dr. Hamilton, specialist, (24 years a practical physician and surgeon,) cures rapture radically and destroys piles painlessly. Office over Brooklyn's Store, Virginia St., Reno, Nevada.

Block and Clausen's lunch to-day will be extra fine and a customer can be served without delay if in a hurry. The best of liquid refreshments can also be found at the Washoe Lunch Counter.

Free! Free! Free! Just think you have the satisfaction of knowing the exact condition of your eyes without costing you a cent by going to Doane, the graduate optician from Philadelphia. Located permanently at the Reno Drug Company's store.

Mrs. Oscar Smith has let a contract to Schaeffer & Cain to put up a two-story brick building on the corner of Virginia and 2d streets. The building will be red brick, sand finish, with iron columns and plate glass front. The cost will be about \$12,000.

AMUSING POLITICS.

Republican Insincerity—Crying With the Democrats for a Purpose.

Amusing things are happening in local politics almost daily, and they are made the more amusing by the pretended seriousness of those who are the chief factors.

It is amusing to hear the "little dogs" of the Republican party barking about Stewart's residence, when these self-same "barkers" know that Stewart holds a certificate of residence given him by a Republican Legislature.

Query: Would these barkers be heard if Stewart were still a member of the G. O. P.? It becomes more amusing when it is remembered that the last Republican Governor was of very doubtful residence, to say the least, and some asserted that his name could not be found on the tax roll of any county of the State. It is amusing from the further fact that the Nevada colony of San Francisco is largely made up of Republican ex-officers, the last of whom did not delay the shipment of his household gods and goods to that place until his term of office had expired, and the last aforesaid furnished the campaign thunder through the columns of the *Gazette* and from the stump, for the very righteous Republican party during the days immediately preceding his removal. It is also amusing to hear the self-constituted guardians of Nevada's citizenship extolling Newlands now, when one has not forgotten that they poured upon his head in campaigns of very recent date, in the most cordial manner, the vials of their wrath for the same reason. It is also amusing to one who reads the names of the candidates for the local offices in some of the counties to find the names of men who have been in the State just a sufficient length of time to gain a residence in order to become candidates, and some, who could not obtain the office wanted, have been satisfied with something less.

It is amusing to read in the Carson *News* and other Republican organs of the necessity of the reorganization of the Democratic party and what a great and good party it is and was. One would suppose that the genial and gentlemanly Jo Ryan had editorial control of these pseudo-Democratic journals, and that Coffin, Colcord, Bragg and others had nothing whatever to do with them or had joined the Democratic hosts. Bank on their enthusiasm, Jo, for they are new converts. They're likely to publish your platform and ticket for nothing, and thank you for the job, Jo, and they'll vote it, sure.

It is amusing to read in the recently adopted platform of the Republican party in this State that Republicans are bimetallists, and that the G. O. P. can be trusted in this matter. What a draft on the faith and credulity of the people of even Nevada, when we remember the circular letter sent broadcast over the signature of Chairman Colcord, who has the Mint, (Good-bye, Charley, to get there, move West) and the letters and speeches of Chief Justice Bigelow the last campaign. It is real comforting to know that they are bimetallists now.

We knew what they were in 1890, when the State Central Committee ordered Stewart and Jones to hold up the McKinley bill in the interest of the free coinage "craze." We know what they said they were in 1892, when they proclaimed from press and stump that they were better silver men than the Silver party or Democrats. We don't know, and no one can tell, what they were in 1894. They opposed and sneered at the "craze" in 1896. They say they are bimetallists now; but what, oh, what will they be after election?

It must be amusing to McMillan and Russell to be called Governor now; it certainly is not offensive, as it is only a joke.

A small amount of amusement can be had from Hummel's race for Congress, but like the Scotch maiden's illegitimate child, it was such a wee thing that very little harm came of it.

It is amusing to see the efforts of the men who supported Cleveland in 1892 and following years with more enthusiasm than they supported Bryan in 1896 to lead nearly three-fourths of the voters into their fold, because "they are the only national Silver party."

And think of it! Dr. Hogan and the *Plainsdealer* supporting Wren and a 16 to 1 platform.

The most amusing thing of all is to observe our Republican friends anoint their souls with the expressed thoughts that they only are the honest, true, capable and patriotic—that they are holier than others, and with uplifted hands and eyes thank God, as did the Pharisee of old, that they are not as other men, especially as Silver men. They and their candidates are true cream; all others are only "skim milk." They are no mere place hunters—they don't want office for the mere sordid salary, therewith connected—they don't like pie and wouldn't know a pie counter from a church altar—they want to serve the State for the State's good only—they are too patriotic and pure to harbor any other thought. That Bragg, who has such an exalted opinion of Alger and the Nevada Volunteers? and his associates should have any other purpose is beyond comprehension. We common mortals must stand abashed in the presence of so great purity of purpose and righteousness of character, because we have dared to continue to advocate silver, after they had taught us it was right, and have refused to change our convictions thereon upon the order of the great and pure Hanna, Quay & Co., as they have done. In the light of recent events, one seriously doubts the propriety of having convictions, especially honest ones, as you are required to change them so often, and to hold to convictions of any kind seems to be criminal. To avoid the perplexity of such doubts and responsibility of such conduct, join the Republican party and become of the purest and best.

Wm. Pinniger, the pioneer druggist, has purchased the store now occupied by Miss Claire Dickinson and will remove his drugstore on the 15th inst.

The ladies of the Congregational church are making preparations for a fair to be held the first week of December of which particulars will be given later on.

M. Fallon, a Churchill County rancher, is in town. He says crops have been fair this year, and though the second alfalfa crop was light the first was heavy.

Ed. W. Wills is rapidly completing the house he moved from Virginia to his ranch on the meadows and expects to have it ready for occupancy about Christmas.

J. T. Moses, who killed the Chinaman near Lovelock, was arrested by Officers McNeilly and Leeper Sunday night and returned to Lovelock last evening in charge of an officer.

Miss Maud Rives, who attended the Bishop's School for Girls here a few years ago, was married in Salt Lake city last week, to Dr. William T. Dalby, a prominent physician of that city.

Lieutenant Gignoux of the 2d Nevada Cavalry, returned to San Francisco last evening to rejoin his troop. It is now expected that the boys will be ordered to Manila at an early date.

Dan O'Conner is putting a very ornamental front on his new two-story brick building opposite the JOURNAL office. Dan is not particularly dressy himself but he evidently believes in stylish buildings.

Two small children giving the name of Curtis, arrived from St. Joseph, Mo., yesterday afternoon. They had made the trip alone under the charge of the trainmen. Their father is employed at the Stewart Institute near Carson and they will continue their journey to him this morning.

R. Hanson, the rancher, yesterday received a letter from his brother, who lives in Iowa, who says wheat is selling at 46 cents a bushel. The average yield this year has been about 17 bushels to the acre so there is not much profit in farming. Here baled hay sells at \$10 per ton which is much better than raising wheat in Iowa.

A MAN OF THE PEOPLE.
The Friend of the Rancher and Prospector.

The Lovelock *Tribune* says of Governor Sadler:

"It is pleasing to see with what favor Reinhold Sadler, the Silver Party candidate for Governor, is being received by the press of the State. The *Austin Reveille* in a recent number contains an exceedingly good notice of the Governor. He is brought out in a strong light as a plain man of the people. The generosity of his nature is dwelt upon. It was this liberal spirit that caused Reinhold Sadler to disperse a fortune of more than two hundred thousand dollars among the prospectors and ranchers of Eureka."

Don't Read
Unless you want to know that the American people use about \$75,000,000 worth of coffee annually. About one-third of this amount is lost by being carried off in the steam when coffee is made in the ordinary open pot.

Professor Liebig, an acknowledged authority on extracts, says coffee contains about 15 per cent of caffeine or aromatic properties which readily pass off in steam. In addition to this, coffee contains a large amount of tannic acid which remains in the beverage when prepared in the ordinary manner. Coffee drinkers must necessarily suffer from the effects of tannin taken into the stomach, and its injurious effect will be better understood when it is known that tannic acid is the principal agent used in tanning leather. There is a process of making coffee by steam, now on exhibition at the store of I. N. Bakelars, which saves one-third the coffee and prepares the drink in from one to three minutes, clear as amber and without any settling material.

All who are interested in coffee making are invited to call and witness the process.

Kindergarten Association
Members of the Reno Kindergarten Association are requested to meet with Mrs. Stubbs at the Cottage promptly at 2 o'clock on Tuesday Oct. 11, for the purpose of transacting important business.

Mrs. R. P. CHANDLER,
Secretary.

INTEREST RATES REDUCED.

An Infallible Sign That Investments Are Unprofitable.

The Bullion and Exchange Bank of Carson and the two Reno banks will reduce the rate of interest on time certificates of deposit from 4 to 8 per cent per annum, commencing October 1st, 1898. The banks find this action necessary, as they report a large increase in deposits and less demand for money.

The above item indirectly points to the stagnation of business caused by the suspension of mining in Nevada. It is a remarkable state of things when money, which ought to be in the channels of trade, seeks safety in bank vaults, drawing a low rate of interest. It may be remarked that when there are large deposits in banks it is a sign that the people are prosperous. The reverse of this is true. When money flows into banks and is congested there, it is a sure sign that investments in property are unprofitable. The money in banks is deposited by those who formerly invested in property and enterprises, thus giving work to the masses. Now it is found absolutely impossible to use money profitably while property is falling. Under free coinage, prices would constantly rise and money would be eagerly invested in property of all kinds, because a profit could be made by so doing. The gold standard, which the Republican party declares must be preserved, is responsible for the suspension of mining in a hundred silver producing camps in Nevada, and the consequent depopulation of those places. It is also responsible for the dismantling of the Mint, which means its ultimate closure and a loss of thousands annually to Carson business men. This is only a slight idea of what the gold standard means.

A vote for the Republican ticket this Fall is an endorsement of the Republican policy of ruin in Nevada.

A SILVER REPUBLICAN.
Lovelock, October 7, 1898.

THE TEN MILLION SILVER SHIPMENT

The Order for it Said to be Revoked.

The order issued by the Treasury Department for the shipment of 10,000,000 ounces of silver bullion from the East to San Francisco, is said to have been revoked.

Now the Superintendent of the Mint at San Francisco has been instructed to receive bullion tendered by any of the local banks. The bankers can purchase the bullion of the producers at the current prices, less the expressage to New York, and deposit it at the Mint.

The Mint, it seems, has been ordered to coin \$1,500,000 monthly. It was originally contemplated to ship the bullion for this coinage from New York to San Francisco. As the greater part of the bullion is produced west of the Rocky Mountains, it looked like carrying coal to Newcastle to ship bullion from New York to San Francisco.

MONEY ORDERS.
People May Deposit Cash in the Post-Office, Subject to Order.

Postmaster Kraus has received instructions from Washington relative to the new money order regulations. These regulations provide that a money order may be issued and made payable at the office where issued.

This gives people opportunity to deposit money at a money order postoffice, take an order for the amount and get the order cashed at the office at any time within a year from the date of its issue.

This virtually makes money order postoffices savings banks, as people can deposit money and get an order for the same payable to themselves. No interest is paid on the deposits, however, but the United States are responsible for the safe keeping of the money.

Silver-Democratic Club Meeting.

The Silver-Democratic Club met at their club rooms last evening. There was a good attendance and a lively interest manifested. The principal business transacted was the arranging of meetings throughout the county during the campaign, at which the candidates will be in evidence and good speakers will be in attendance. The regular club meeting will be the first campaign meeting Reno and will take place next Friday evening, the 14th inst. Other meetings will take place at the following places, also dates:

Franktown, Wednesday October 19th, Verdi, Saturday, October 22; Hufakkers, Wednesday, October 26; Wadsworth, Saturday, October 29th; Reese, Friday, November 4th; Glendale, Saturday, November 5th. Bills will be posted announcing dates and particulars.

W. C. T. U. National Organizers.

The ladies of the W. C. T. U. met yesterday afternoon and evening and will meet again this evening. The ladies are arranging for an entertainment in the interest of their work, the date and particulars to be published later. Mrs. Maude Lorene Greene, of Colorado, National organizer and Miss Hattie Henderson of Texas, also National Organizer are here and will give what they please to term a "Chalk Talk." Mrs. Greene is an expert with a crayon and talks as she draws, making the keenest of hints as she illustrates her sayings on the blackboard with entertaining pictures. Miss Henderson is a pleasant speaker and has had an extended experience in the Union work. The two ladies work together and their gospel temperance meetings are said to accomplish great good in all lines of the work.
